

# MAFEX® ULV spraying system with optimally adapted roller table

## *A winning combination!*

- Easy to integrate:** with charge and discharge chute and step-less speed control: adjustable to the desired tonnage
- Clean:** no spillage as excess liquid is collected
- Rustproof:** table, customised spray chamber and rolls in stainless steel (optional: soft rolls e.g. for sensitive fruits)
- Mobile und flexible:** height adjustable chassis frame with wheels
- Dimensions:** length 160 cm, width 80 cm – other dimensions on request
- Economical:** reduction of applied product thanks to optimal dispersion of active substance
- Optimal results:** uniform treatment of the potatoes or fruits
